

Assignment #3

Instructions

In a Group of 2 (3 if permitted by GA staff) - Each student is to write a case study no less than 1500 words about a project they have led or been a part of, once completed this is to be given to another student within the group to be examined/studied This study must include estimates of costs, resources, time and constraints. That student must then write a synapse of what happened as well as sections speaking to how the project was organized, how the project was managed, an evaluation on how resources such as budget and time were handled and an evaluation on how risks were handled. Lastly they should include a "Lessons learned" section. In total this response should be no less than 1500 words.

- Each member will submit there own
- Indicate the student names and ID#s of yourself and the person who's case study you reviewed
- All reference material used should include quotations and a place in the works cited in APA format (Google it)
- Do NOT copy paste answers or us an AI generator as we will be checking
- If you paste an answer and properly cite it you will still get a "0" for that section as marks are only awarded for original work. Your welcome to quote and cite anything you would like but to get credit you need to speak to that item and why its included etc...
